

Gravity Sketch Setup for Massless

Instructions

With your Massless system assembled (see [Quick Start User Guide](#)), the OpenVR driver installed (see [OpenVR Driver Install Guide](#)), and Gravity Sketch purchased and downloaded through the Steam store, you're ready to get Gravity Sketch setup for Massless!

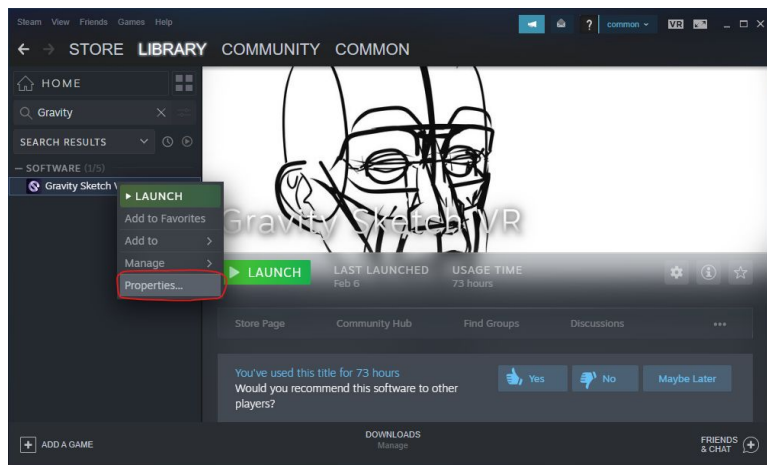

Fig. 1

- Right-click Gravity Sketch in SteamVR library (Fig. 1)
- Click “Properties...”

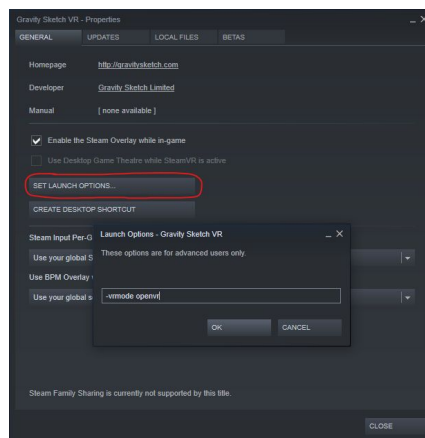

Fig. 2

- Click the button “Set Launch Options...” (Fig. 2)

- Add to the text box:

```
-vrmode openvr
```

- Press Ok
- Then click Close to close the dialog box
- Launch Gravity Sketch
- Create!

If you have any questions send a message to the support team at support@massless.io

Enjoy!
